Made in PRC

Congratulation with your new garden arch. Just follow a few good advices and the assembling will go easy and smoothly.

Start by controlling the contents of the packing. (see part list)

The assembling of the garden arch is easiest if you assemble the garden arch in a laying position. Nuts and screws are inserted as shown at the picture. When the metal parts are placed correct next to each other tighten the nuts and bolts firmly. When the garden arch is assembled, put it in a upright position and placed on the spot you have chosen. Pres the integrated ground spikes into the ground and you are ready to enjoy the beautiful sight of your new garden arch.

NOTE! When the arch is finished, there will be 1 angle screw and 2 angle collectors in excess. These are used if you wish to put 2 garden arch together into a double arch.

Tillykke med deres nye rosenbue. Ved hjælp af nogle få gode råd, tager det kun kort tid, at samle og opstille denne flotte rosenbue.

Start med at kontrollere indholdet i emballagen. (se stykliste)

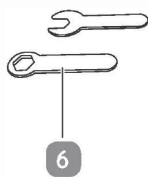

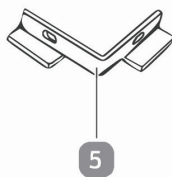

Rosenbuen samles liggende, hvilket gør det lettere at styre delene. Møtrikker og bolte sættes i som vist på tegningen. Metaldele placeres korrekt ud for hinanden og møtrikker og bolte strammes. Når rosenbuen er samlet rejses denne og placeres på det udvalgte spot. Tryk de integrerede jordspyd i jorden og de er klar til at nyde synet af deres nye flotte rosenbue.

BEMÆRK! Når buen er færdigsamlet vil der være 1 vinkelskrue og 2 vinkel beslag i overskud. Disse benyttes, hvis man ønsker at sætte 2 rosenbuer sammen til en dobbelt rosenbue.

1. Stykliste

- A. 1 stk.
- B. 2 stk.
